Summary

B.Tech graduate specializing in Artificial Intelligence and Data Science, with strong problem-solving, leadership, and technical skills. Experienced in AI/ML projects, data analysis, computer vision, deep learning, and startup operations.

Education

B.Tech in Artificial Intelligence and Data Science 2022–2026
Ilahia College of Engineering and Technology (KTU)
CGPA: 9.06/10

Minor in Electronics and Communication Engineering
Ilahia College of Engineering and Technology (KTU)

Class XII (CBSE) 2022
Amal English School, Thrissur – 85%

Class X (CBSE) 2020
Amal English School, Thrissur – 92.4%

Skills

- **Programming:** Python, C, Java, R, SQL
- **Databases:** MySQL, DBMS
- **AI/ML & Data Science:** Machine Learning, Deep Learning, NLP, Computer Vision, Data Analysis, Visualization
- **Tools:** Power BI, Jupyter, Git, MS Office
- **OS:** Windows, Ubuntu

Projects

AIR BRIDGE – Developed a self-autonomous drone using the iflightz BLITZ Mini ATF435 onboard AI platform, integrating IMU, GPS, and ultrasonic/ToF sensors. Implemented Visual-Inertial Odometry (VIO) fused with GPS for real-time localization, with ROS-based sensor fusion, mission planning, and autonomous flight control.

Majmaul Madaris – Developed an institution management system for Arabic colleges, enabling streamlined student records, attendance tracking, and administrative operations using Python and SQL, improving operational efficiency by 30%.

The 3rd Eye – Built an AI-powered CCTV threat detection system using YOLO to identify suspicious activities in real time, reducing false alerts by 20% and enhancing security monitoring effectiveness.

Gesture Media Control – Implemented a hand gesture-based media control application using CNN and OpenCV, enabling intuitive, contactless interaction with media systems.

Experience

Chief Operating Officer (COO) – Zaasio Technology May 2025–Aug 2026
- Oversaw operations, product strategy, and team coordination in a technology startup.
- Managed AI and Data Science workshops, technical initiatives, and project delivery.
- Streamlined processes, increasing team productivity .

Intern – ATEES Global May 2023
- Completed a remote internship focused on AI development using Python.
- Developed and implemented AI models, gaining practical experience in machine learning and data analytics.

Certifications

- Claude 101 Certification
- Power BI Internship – Nest Digital
- Applied AI with Python

Achievements & Activities

- Young Innovators Program (YIP) 2023
- HackRush Hackathon Runner-Up 2026
- IEDC StartUp Summit Hackathon Winner 2026
- Core Team Member, IEDC (2023–24)
